

Week 6 · Set A · Radio Rescue

Onion's teaching plan · 60-minute face-to-face · G9 Term 1 · Date: _____

School alignment: Headway Quiz #1 (term-plan milestone); time prepositions, **PDF p.26 / printed p.27**; tense/perfect practice PDF pp.3–5, 9, 21–22; voice PDF pp.12–14. Exact school quiz coverage has not been supplied: this is targeted consolidation, not an official mock paper.

Latest lesson observation: active/passive recognition improved, but tense × voice remains unstable. Past continuous, present perfect and past perfect continuous were revisited, not verified mastered.

1 · Arrival diagnostic BEFORE teaching (6 minutes)

Ask Isaac to attempt first, underline the time evidence, identify doer/receiver, and give one reason. Record independent vs prompted answers; do not reveal the key first. If all four are secure, compress grammar teaching; if two or more are wrong, model the weakest contrast.

Unseen prompt	Teacher key and reason
→PASSIVE: Rosa was testing the microphones when the director arrived. Keep the doer and ongoing aspect.	The microphones were being tested by Rosa when the director arrived. Plural receivers need were being tested; preserve the ongoing past action.
Choose by or until: The studio doors will stay open _____ noon, when they close.	until The state continues to an endpoint; this is not a completion deadline.
Fix only the verb: Before the news began, Sam had been edited audio for an hour; he did the editing throughout that hour.	Before the news began, Sam had been editing audio for an hour. Sam is the doer of a continuing action before a past event: had been V-ing.
Keep or fix: I have wrote the opening lines, so they are ready now.	I have written the opening lines, so they are ready now. Present perfect active needs have + V3: written, not wrote.

2 · Lesson sequence

Minutes	Action / evidence
0–6	Arrival diagnostic: no teaching first; note hint level.
6–12	Quiz checkpoint: marked Headway/GTR paper not received. If brought, repair two real errors; otherwise run an unscored spelling/meaning sample from the 12 school words on page 2. Never invent a quiz score.
12–22	Micro-teach weakest tense × voice contrast. Time meaning → tense → doer/receiver → complete verb. Contrast active had been V-ing with passive had been + V3; no rare had been being target.
22–30	Time-preposition contrast: at/on/in; since/for; by/until; during/for. Require a reason: point, duration, deadline or endpoint.
30–50	Class worksheet /20. Model only the procedure; gradually withdraw prompts. All zones interleave rules; inspect errors immediately after a switch.
50–56	Class quick-fire game: use at most cards 1–7 (say answer → reveal → self-mark). Reserve cards 8–10, unseen, for the exit check. No lives or bonus rules.
56–60	Exit check: use three previously unplayed game cards. Ask for full forms and one reason, without hints. Assign home worksheet /20 (25 min) and home game (optional 5–8 min).

Board routine

1 TIME: now result / past ongoing / earlier past / duration before past?

2 TENSE: choose the time-aspect meaning. 3 VOICE: subject does or receives?

4 BUILD: was repairing ↔ was being repaired; has written ↔ has been written.

5 BOUNDARY: had been observing = active duration; had been observed = passive completion. Do not change a correct sentence merely because it contains **been**.

Teacher reference · Week 6 Headway vocabulary

Canonical school-photo row, approved 2026-09-27; no issue date printed. Retrieve exact headwords before discussing inflected forms. Both sets share this factual list; assessed sentences differ.

Headword	Quick meaning / usage cue
wander around	move about without a fixed destination
fateful	having an important effect on later events
sleeping rough	sleeping outdoors without proper shelter
horde	a large crowd or group
notorious	well known for something bad
strike gold	find gold; figuratively, achieve unexpected success
grasp	understand; hold firmly
settle down	become calm or establish a stable home
illiterate	unable to read and write; not the same as unintelligent
fend for	look after / support; often fend for oneself
venture	go somewhere risky or unfamiliar; a risky undertaking
slums	overcrowded urban areas with poor housing

Set A contextual focus: wander around; fateful; sleeping rough; horde; notorious; strike gold. The full school list remains twelve words, not just these six. Use the existing corrected hub flashcards for the remaining headwords.

Self-repair cues

- If he chooses the voice correctly but drops the tense, ask: Which part tells us when or how long? Keep that meaning before rebuilding the phrase.
- If he treats every been as passive, ask: Who performs the action? Contrast had been waiting (active duration) with had been checked (passive completion).
- If he guesses a time preposition, ask whether the phrase is a starting point, duration, deadline or continuing endpoint. Retrieve voluntarily and have written briefly.

Short older-error retrieval, not a new main lesson

W4 original partial page: 30/40 visible only, not the whole pack or a quiz. Real errors: **looks mystically** → **looks mystical**; **Stop soil** → **Stop soiling**; **a hour / a X-ray** → **an hour / an X-ray** (received 2026-09-27). Earlier **have wrote** → **have written** (2026-08-15). Ask for the rule, not memorised corrections. School quiz results remain unknown.

Record after the lesson — blank until observed

Diagnostic first attempt: ____ /4 · independent: ____ · hints: ____

Class worksheet: ____ /20 · tense errors: ____ · voice errors: ____ · V3 errors: ____ · time-preposition errors: ____

Switch-point errors (item immediately after a rule change): ____ · correct items falsely changed: ____

Exit check independent: ____ /3 · explanation quality: ____ · next target: ____

Home worksheet first attempt: ____ /20 · red-pen repairs: ____ · Headway school quiz: not received / paper brought:
