

Storm-route school rescue · CLASS worksheet

Isaac · G9 T1 W5 · Set A · tutor-led · /20

黃金法則：先問有冇移動、再問終點：toward = 向住（未必到）· onto = 上到表面 · away from = 離開 · through = 穿過兩端；under 可以係靜止位置。Tense: yesterday → was/were + V3; at that moment → was/were being + V3; before a past event → had been + V3。每題重新判斷，唔好 autopilot。

In class: Say the time/path clue to your tutor before writing. This is practice, not the school GTR quiz.

Answer Key · Class /20

Keep this page folded away while working. T/F /4; cloze /8; writing /8. Accept equivalent original writing when all named conditions are met.

Zone 1

1. T — Toward marks approach; reaching the gate is not implied.
2. F → The route sheet stayed on the wall throughout the storm. — Stayed describes position: on, not onto.
3. T — Ongoing past action received by signs: were being + V3.
4. F → The hatch had been closed by the guards before the rain began. — The hatch receives the action: had been + V3, not closing.

Zone 2

5. toward — Approach without arrival.
6. were being carried — In progress then; passive receiver = signs.
7. under — Below and stationary: under can be a place preposition.
8. threaten — Threaten = warn of harm; after did not use base verb.
9. onto — Movement to a surface.
10. was pinned — One completed event at a stated past time: simple past passive.
11. soiling — Soiling is making something dirty; a noun/gerund after the.
12. through — Entrance plus exit.

Zone 3 · sample answers

Marking watch-list: T is a real answer; do not demand a rewrite. For past perfect look for the earlier event, not merely the word "before". For full-credit writing require the EXACT headword (not a substitute), correct part of speech and tense, contextual meaning, capital letter and full stop. If two criteria compete, explain the split mark to Isaac.
