

W3 Loftcube 天裝之城 — Class Worksheet

Student: Isaac Lee (8E) · W3 Set B · 主題: Passive — Tense-Carry 紀律 + 連續被動 · 堂上 25 min · 總分 20

● 黃金法則 (每題都係新一局 — 唔好 autopilot !)

① **doer-test**: 主語自己做嘢 → 主動; 被做個個 → 被動 ② 被動 = **be + V3**, 而 tense 全部住喺 **be** 度 — 轉聲時 **tense 要跟 be 一齊搬** ! ③ 冇受詞 = 冇得變 (happen / arrive / rise...) ④ 講唔出錯處 = 唔好亂改亂 flag 🚩

Part A · 紅綠燈 T/F 4 分 (4×1)

Circle T / F。提示：講唔出錯處 = T。

- The cubes **are lifted** onto roofs by helicopter. (T) (F)
- The kitchens **is being fitted** this week. (T) (F)
- The first cube **was designed** by a German architect. (T) (F)
- The cubes **can moved** from city to city. (T) (F)

Part B · 轉向衝刺 8 分 (4×2)

- 被動 The government will connect the cubes to the power grid.

- 主動 The bathrooms **are being fitted** by a German company.

- 被動 Somebody had taken the old lift out before the renovation.

- 主動 The housing fair **was held** in Shenzhen last year.

Part C · 天裝之城故事 6 分 (6×1)

Architects _____ (**1. worry**) about crowded cities for years, and one answer _____ (**2. invent**) in Germany: a portable micro-apartment. The cubes _____ (**3. build**) in a factory and then _____ (**4. lift**) onto any rooftop by helicopter. Last month, a young designer _____ (**5. buy**) one, and now he _____ (**6. live**) above the city with a beautiful view.

💡 呢篇有格有啲係主動㗎 — 唔好見就去到變被動！

Part D · 修復你嘅舊錯 2 分 (2×1)

下面兩句係你 2026 年真實寫過嘅錯。每句 1 個錯 — 搵出嚟，寫返啱：

- The thief **gets criticize** by everyone in the city. (你自己 2026-06-05 嘅錯)

- The body can be digested the food.** (2026-08-15 — 邊個食邊個?)

✅ Self-Check (交貨前 60 秒)

- ☐ 每題都有做 doer-test (邊個做嘢? 邊個被做?) ☐ 轉聲時 be 冇多冇漏 ☐ tense 冇跟 be 一齊搬?
☐ V3 逐個核對 (written / shown / built / held...) ☐ 句首大寫 · 句尾 full stop ☐ T/F 題講唔出錯處 = T

🔑 Answer Key — Set B Class WS

A1	1. T · 2. F — SVA : kitchens → are being fitted ° · 3. T — past 被動啱 ° · 4. F — 缺 be : can be moved °
A2-1	The cubes will be connected to the power grid (by the government). — 將來被動 will be + V3 °
A2-2	A German company is fitting the bathrooms. — ⚠️ switch-point : are being fitted → is fitting (連續被動搬返主動進行) °
A2-3	The old lift had been taken out before the renovation. — 過去完成被動 had been + V3 °
A2-4	(Shenzhen / The council) held the housing fair in Shenzhen last year. — was held → 主動過去 held °
A3	1 have worried (主動完成 — architects 係 doer) · 2 was invented · 3 are built · 4 are lifted · 5 bought (主動) · 6 is living / lives (主動) °
A4	1 The thief gets criticized ... (get + V3 , 2026-06-05 舊錯) ° 2 The body can digest the food . (body 係 doer → 主動 , 2026-08-15 舊錯) °

🚩 switch-point 留意 A2-1→2、A2-3→4 ; A3 內主動/被動已交錯 — 錯嘅「該主動卻變被動」位置 = 新規則 over-application 證據 °
