

🕒 W2 Set B — 進度條任務 (Loading Bar Mission)

60 分鐘 · 導師參考用 · 對象：Isaac (G9) | 主線：Present Perfect Simple vs Continuous (booklet pp.3–4, 21)

核心比喻：**Simple Perfect = 📶 100% 下載完成** (檔案喺度，結果實在 — done 3 exercises, bought a bike) | **Perfect Continuous = 🔄 Loading 中** (進度條仲行緊，講緊幾耐 — since 9, for two hours)

材料：class_ws_b (堂上) · home_ws_b (功課) · games/w2_class_b.html (堂上 game) · games/w2_home_b.html (屋企 game) | vocab 線：U1 B 組 (fateful · sleeping rough · horde · strike gold · settle down · fend for)

0 · Arrival Diagnostic (3 min, 教前)

白板三句，口頭揀 100% 完成定 Loading 中，講理由：

1) He _____ (eat) all the chocolates. 2) I _____ (study) for this test since Monday. 3) We _____ (finish) our project already.

3/3 → 直接跳入 Zone 3 產出加難 (要佢兩句互變)。≤1 → 用進度條圖慢教 Zone 1。

Q1 如果佢揀 loading — 請佢諗「朱古力食咗去邊？」(all = 100% 證據)。呢個『搵證據』步驟係成課主軸。

1 · 核心教學：Loading 幾多 %? (12 min)

步驟：① 白板畫兩個進度條。左條 100%：have + V3，配證據 — *She has refilled the kettle* (booklet p.3：壺而家有水 = 100%)。右條 78%...：has been + V-ing — *He has been writing since 9* (p.3，未寫完)。

② 教「證據偵探」口訣：句子入面有冇一個『100% 證據』？(數量 three letters · all the chocolates · finished) 有 → Simple。淨係得時間 (since / for / all day / recently) → Loading。

③ 邊界 (Set B 主打)：**狀態動詞冇 loading 條** — know · believe · have(擁有) · love：「你唔可以 loading 緊『我識你』」 — 一律 Simple。呢個係 booklet p.21 答案頁重點。

2 · Class Game：Loading 還是 Done? (10 min)

開 games/w2_class_b.html。玩法一句過：句子出 → 口頭講「Done」定「Loading」 → 講你隻眼見到咩證據 → 揭答案對。錯咗唔扣嘢 — 揭咗先係教學時刻。最後 3 條係狀態動詞陷阱，睇佢捉唔捉到。

3 · Class Worksheet 行貨流程 (20 min)

固定區：寫出正確 form (6 句，have+V3 vs been+V-ing 交替) — 落筆前啗一次「幾多 %」。Zone 1 (口頭)：證據偵探快答。Zone 2：checkpoint cloze (W1 have+V3 舊知回收)。固定 vocab：fateful / horde / settle down / strike gold。Zone 3：「任務報告」寫真句 — SVA -s watch 開住。

4 · Wrap-up (5 min)

Exit check 口頭：① 「I have been having this phone for two years」 — 有咩問題？(have=擁有 狀態 → Simple) ② 你自己講一句 Done 句 + 一句 Loading 句。

功課：home_ws_b (25 min) + games/w2_home_b.html 時光快遞員。帶返 home_ws_b 分數下次堂。

⚠️ Error-handling cues：① have wrote → 「V3 著咩衫？」② 狀態動詞 + V-ing → 「呢個動作 loading 到嚟咩？定係佢一直咁滯？」③ 漏 -s → Self-Check 專格。④ Closed gaps (conditionals 等) 只做 warm-up retrieval，唔好重教。
