

Week 6 · Set B · Independent Weather Mission

Isaac Lee · Grade 9 · Date: _____ · 25 minutes at home · Total: /20

TIME → TENSE → VOICE → FULL VERB. Read the whole context. A receiver needs passive; a doer needs active. **Every item is a new decision.**

Past ongoing: was/were V-ing ↔ was/were being + V3 · Present result: has/have V3 ↔ has/have been + V3.

Earlier duration: had been V-ing (active) ≠ had been + V3 (past-perfect passive).

Zone 1 — Confidence Booster

/4

Circle T or F for the highlighted form. Leave correct forms unchanged; be ready to explain an F.

1. The documentary about an eclipse **was suspenseful**. (T) (F)
2. Before the storm ended, the team **had been checked** the readings for two hours; the team was doing the checking throughout that time. (T) (F)
3. At 9 p.m. last night, the star tracker **was being adjusted** by Mei; the work was unfinished. (T) (F)
4. The archive reopened **at** November. (T) (F)

Zone 2 — Learning Edge

/10

Complete Q5–10 (1 mark each). Switch voice in Q11–12 (2 marks each); preserve tense, meaning and time.

5. After several explanations, Ava _____ the new weather symbols, so she can use the chart unaided now. [grasp; present perfect active]
6. The outdoor clock has been reliable _____ three weeks. [since / for; choose one]
7. The cracked screen _____ by Omar on Tuesday; the job was completed that afternoon. [replace; past simple passive]
8. The excited apprentices need a few minutes to _____ and become calm before a night observation. [settle down; use the root phrase after to]
9. The chart must be ready _____ 5 p.m.; that is the latest acceptable completion time. [by / until; choose one]
10. The rain gauge stopped working _____ the night watch; the failure occurred at one point within that watch. [during / for; choose one]
11. →ACTIVE: An audio weather guide has been created by Amina for illiterate adults this week. Retain the creator, recipients and time.

12. →PASSIVE: The outreach team was taking weather charts to families in the slums at noon. Retain the doer, recipients and time.

Zone 3 — Synthesis Challenge

/6

Write one complete sentence per task. 3 marks: required tense/voice; target word and time phrase; grammatical sentence.

13. →PASSIVE, present perfect. Dr Lin has finished explaining safety rules to visitors who want to venture onto the platform during this week's visit. Start The safety rules; retain the doer and time phrase.

14. →ACTIVE, past perfect continuous. Stranded researchers tried to fend for themselves for three days, right up to a rescue boat arriving. Use fend for and for three days; show the later arrival.

SELF-CHECK

- ☐ I used the time relationship, not one keyword. ☐ I checked the doer/receiver again.
- ☐ I kept the tense when switching voice. ☐ I checked V3 after have/has/had and in passives.
- ☐ I checked the time preposition and left correct sentences unchanged. ☐ I attempted every item.

First attempt: ____ /20 · Corrections completed: ____ · Answers shown below are models; equivalent grammatical wording is accepted when the required tense, voice and target are preserved.

Q	Answer	Why / marking	Marks
1	T	Suspenseful is an adjective describing the documentary after was. This revisits an older word without adding an unnecessary -ly ending.	1
2	F	The team is the doer, and the duration leads up to another past event. Use active had been checking, not passive had been checked. Corrected sentence: Before the storm ended, the team had been checking the readings for two hours; the team was doing the checking throughout that time.	1
3	T	The tracker receives an adjustment that was ongoing at that past moment. Was being adjusted correctly preserves past continuous passive.	1
4	F	A month takes in, whereas clock times take at. Corrected sentence: The archive reopened in November.	1
5	has grasped	Ava has come to understand the symbols, with the current result that she can use the chart. She is the doer, so present perfect active is has grasped.	1
6	for	Three weeks is a duration, so use for. Since would require a starting point such as the first day of the month.	1
7	was replaced	The screen receives a completed replacement in a finished past period. Use past simple passive was replaced; was being replaced would present the work as ongoing instead.	1
8	settle down	Here settle down means become calm and ready to focus. The infinitive after need a few minutes to uses the base phrase settle down, not settled down or be settled down.	1
9	by	By sets a deadline: ready no later than 5 p.m. Until would describe a state or action continuing up to that time, not this completion deadline.	1
10	during	During places the failure within the night-watch event. For normally introduces the duration of an activity or state; it does not express this point within the event.	1
11	Amina has created an audio weather guide for illiterate adults this week.	Amina becomes the doing subject. Remove passive been but keep present perfect has created.	2
12	Weather charts were being taken by the outreach team to families in the slums at noon.	Weather charts become the receiving subject. The plural subject needs were being taken to preserve past continuous passive.	2
13	The safety rules have been explained by Dr Lin to visitors who want to venture onto the viewing platform during this week's visit, so the visitors know the rules now.	1: have been explained; 1: venture + during this week's visit; 1: a complete sentence preserving doer and recipients.	3
14	Before the rescue boat reached them, the stranded researchers had been trying to fend for themselves for three days.	1: active had been trying; 1: fend for + for three days; 1: a complete sentence showing the duration before rescue.	3

Marking guide

Gap / T-F: 1 mark for the complete correct response. Rewriting: 1 mark for correct tense/aspect and verb phrase; 1 for the required voice with preserved meaning and subject/object agreement. Production: 1 for required tense/voice; 1 for the specified target word or time phrase; 1 for a complete grammatical sentence with capital and full stop. An answer to an F item only needs F, unless correction is expressly requested.

Watch-list: have/has/had + V3, not V2; continuous passive needs **being**; **had been V-ing** is active, not automatically passive. **Since** = starting point; **for** = duration; **by** = deadline; **until** = continuing up to an endpoint. Record first-attempt marks separately from red-pen repairs.
