Marking guide

Gap / T-F: 1 mark for the complete correct response. Rewriting: 1 mark for correct tense/aspect and verb phrase; 1 for the required voice with preserved meaning and subject/object agreement. Production: 1 for required tense/voice; 1 for the specified target word or time phrase; 1 for a complete grammatical sentence with capital and full stop. An answer to an F item only needs F, unless correction is expressly requested. **Watch-list:** have/has/had + V3, not V2; continuous passive needs **being**; **had been V-ing** is active, not automatically passive. **Since** = starting point; **for** = duration; **by** = deadline; **until** = continuing up to an endpoint. Record first-attempt marks separately from red-pen repairs.
