

Week 5 · Find the Way

Isaac Lee · G9 Term 1 · self-study pack · 40 minutes · /24 marks · school focus: direction prepositions (booklet p.23) + GTR Quiz 1 week

Mission briefing (1 minute) — Work through the stations in order. For each one: read the blue TEACH box → answer WITHOUT the key → check the final page → correct mistakes in another colour and write WHY. Give every question a best guess; never leave a blank. The actual GTR quiz paper is **not** included here: fill in the quiz-review box only if you have your marked paper.

ZONE 1 · Station 1 · Confidence warm-up · 4 minutes · /4

TEACH | Check the whole sentence, not just the highlighted form. If you can name a real error, circle F and fix it. If the sentence already works, circle T. Some sentences really ARE correct.

Circle T or F. For every F, write a correction on the line. (1 mark each: F needs a valid correction.)

- At 7 p.m. yesterday, the clues **were being checked** by the team. T / F _____
- By the time the bell rang, the notice **had post** on the door. T / F _____
- An honest** guide showed us the map. T / F _____
- The police was** following the suspect last night. T / F _____

ZONE 2 · Station 2 · Direction detective · 10 minutes · /8

TEACH | Ask: where is it GOING? toward = nearer a destination (not necessarily reaching it); **onto** = from elsewhere to a surface; **under** = into a space below something; **away from** = farther from a starting point; **through** = in one side and out the other. **Boundary:** "The bag is under the bench" gives a location, NOT movement. The same word can describe either job—read the verb.

Word bank: toward · onto · under · away from · through (use a choice again if needed; no extra forms)

Switch task type as you go: blanks → T/F → blanks → T/F → blanks. 1 mark each.

- The cyclist rode _____ the bus stop but turned off before reaching it.
- Climbing the ladder, the firefighter stepped _____ the roof.
- "The rabbit is under the bench" describes **movement**. T / F
- Cold air blew _____ the open doorway into the hall.
- When the rain began, the kitten crawled _____ the bench.
- "She ran away from the dog" describes movement **away from a source**. T / F
- From the pavement, the dog jumped _____ the low stage.
- The children moved _____ the smoke, putting more distance between themselves and it.

ZONE 2 · Station 3 · Read for details · 9 minutes · /4

TEACH | How to find a detail: underline a name, a time, or a reason in the question. Find that same fact in the passage. Write only what the text says; do not invent the next part of the story.

At 4:05 p.m., rain began at Hillview School. Ms Chan asked volunteers to lead younger pupils toward the library. Isaac noticed that the rear door had been locked before the warning bell rang, so the group chose the front corridor. While they were walking through it, a poster was being carried away by the wind. Maya caught the poster and put it under a dry bench. At 4:12 p.m., everyone reached the library. Ms Chan checked the attendance list and found that no one was missing. She thanked Maya for helping, but told the group not to go back outside until the rain stopped.

- At what time did everyone reach the library? _____
- Why did the group choose the front corridor? _____
- Who caught the poster, and where did that person put it? _____
- What did Ms Chan learn from the attendance list? _____

Week 5 · Use the clues

Student work continues · Stations 4–5 and quiz-review box · Answer Key is on its own last page

ZONE 3 · Station 4 · Timed grammar switch · 8 minutes · /4

TEACH | Two choices EVERY time: (1) Is the subject the doer (active) or receiver (passive)? (2) Is the event one past action, in progress then, or earlier than another past action? **Active:** locked / was locking / had locked. **Passive:** was locked / was being locked / had been locked. Do not add “being” unless the action was IN PROGRESS.

Exam mode: Set an 8-minute timer. Once it starts, do not look back at the TEACH box. Write the whole verb phrase; no blanks left empty. One mark per answer.

1. While the caretaker was calling for help, the front door _____ (repair; action in progress; passive).
2. Before the pupils entered, Ms Chan _____ (check) the corridor. (earlier; active)
3. Yesterday the caretaker _____ (lock) the gate. (one past action; active)
4. By the time the parents arrived, the safety signs _____ (put up). (earlier; passive)

ZONE 3 · Station 5 · Make your own route · 6 minutes · /4

TEACH | Use exact target words: **pleaded for help** = asked urgently; **notorious** = famous for something bad. Make one complete sentence each. The direction word must describe real MOVEMENT, not just a static place. Sample frame: “A pupil [action] [direction] [destination].” Do not copy the sample answers in the key.

2 marks each: (1) both exact words used correctly; (2) one coherent complete sentence with capital letter and full stop.

1. Use **pleaded + toward** in a sentence (not the story above).

2. Use **notorious + through** in a sentence.

Optional 3-minute GTR word replay (unscored) — Cover the answers. Write the correct form of a word from last week's 12-word list for each clue. If one is difficult, mark it with a star for review before the quiz.

1. unable to read/write: _____
2. ate greedily: _____
3. an ominous look: _____
4. behaving as if better than others: _____
5. begged urgently: _____
6. unusually remarkable: _____

GTR Quiz 1 autopsy — ONLY if you have the actual marked quiz

School quiz date: _____ Actual score: ____ / ____ Words missed: _____

One original wrong answer: _____

Correct answer: _____

Why it was wrong (meaning / form / spelling / reading detail): _____

My one action before the next quiz: _____

If the quiz has not happened or the paper isn't available, write “Not available yet.” Do not invent a score.

Self-mark & repair (3 minutes) Station 1 ____/4 + 2 ____/8 + 3 ____/4 + 4 ____/4 + 5 ____/4 = ____/24.

☐ I checked the key only after attempting the work. ☐ Every wrong answer has a corrected form AND a reason. ☐ I did not treat “under” as always a direction. ☐ Timed Station 4 had no blanks. ☐ I used both target words exactly. **Target: 20/24 or better (at least 80%).**

If you want one optional five-minute replay of last week's skill, the W4 “Time Detective” game is at https://onion9156.github.io/isaalearns/games/w4_home_detective.html. Not part of the /24.

W5 · page 2 of student work · Parent: allow quiet time and a timer; no need to teach or mark. Keep the school quiz paper for the next lesson if available.

ANSWER KEY · Week 5 · check AFTER you finish both student pages

Station	Answers and WHY
1 · /4	1 T. In progress at that past time, passive → were being checked . 2 F → had been posted (the notice receives the action, before the bell). 3 T. “honest” begins with a vowel sound: an honest . 4 F → The police were following the suspect last night . “Police” takes plural agreement. Give 1 mark for correct judgement; F also needs correct repair.
2 · /8	1 toward · 2 onto · 3 F (static location; no movement) · 4 through · 5 under · 6 T · 7 onto · 8 away from. Common trap: “under” alone does not prove movement: crawled = motion, is = location. “Toward” does not promise arrival.
3 · /4	1 4:12 p.m. · 2 The rear door had been locked (so they could not use it). · 3 Maya caught it and put it under a dry bench (both facts needed). · 4 No one was missing. Accept equivalent accurate English; no extra invented details.
4 · /4	1 was being repaired (ongoing passive) · 2 had checked (earlier active) · 3 locked (simple past active) · 4 had been put up (earlier passive). One point only for the full correct phrase; correct tense but missing “being”/“been” = 0.
5 · /4	Sample only; many answers are possible. 1 “The child pleaded for help as she walked toward the school gate.” 2 “A notorious thief ran through the tunnel.” For EACH: 1 mark if both named words appear with the correct meanings and grammar; 1 mark if movement makes sense and the sentence is complete with a capital and full stop. Do not award a point for swapping in a synonym instead of the exact target.

Optional GTR word replay answers: 1 illiterate · 2 gobbled · 3 sinister · 4 supercilious · 5 pleaded · 6 extraordinary. Check both spelling and part of speech: **gobbled** and **pleaded** describe past actions.

Repair plan based on your missed station: If S1: ask if the form is already correct before changing it. If S2: draw an arrow showing START → END for each missed preposition. If S3: point to the exact words in the paragraph. If S4: write doer/receiver + timeline before the verb. If S5: underline both target words and check movement, capital, full stop.

GTR Quiz 1 quick-reference card · 12 words from the Week 5 booklet list

Word	Useful meaning	Word	Useful meaning
social injustice	unfairness in society	plead	beg urgently
threaten	say you may cause harm	wander around	walk without a set route
notorious	famous for bad reasons	illiterate	unable to read/write
mystical	mysterious; supernatural	sinister	threatening or evil
supercilious	arrogant; looking down on others	extraordinary	very unusual or remarkable
soiling	making dirty	gobble	eat quickly and greedily

Progress note for Onion: Actual GTR quiz score and W4 pack responses have not been supplied; neither is being inferred here. School booklet p.23 lists *toward / onto / under / away from / through* for direction. Keep W5 practice /24 separate from any school score; log both only when marked work is available.
